Dear Dr. ~~Banerjee:~~ Dipankar

RE: National Standards for Immunohistochemistry Testing

I have been asked by the President / Chief Executive Officer and the Vice-President of Quality Diagnostic and Medical Services, Eastern Health, as to whether the issue of Immunohistochemistry Testing could be brought forward to the Canadian Association of Pathologists. I think the whole issue of National Standards for Laboratories across Canada could be spearheaded by the Canadian Association of Pathologists and brought forward to the Federal Minister of Health. I wonder if we could put this on the agenda for our next face to face meeting of the Executive in late November.

I look forward to your reply.

Sincerely yours,

Don
