

June 18, 1997

Dr. Sushil Parai
S. A Grace General Hospital
Laboratory Medicine
241 LeMarchant Road
St. John's, NF A1E 1P9

Dear Dr. Parai:

This is a follow up on our conversation in the Site Chiefs' meeting yesterday and the phone conversation early this morning. You filled in the immuno request for the two cases you are complaining about (our #'s 4185-97 and 4187-97, Grace's #'s 5476-97 and 5326-97) on June 2, 1997(Monday). The stains were completed on June 5, 1997 (Thursday). I am attaching copies of the request forms for these two cases to show that the histochem has signed the completion of the procedure on June 5, 1997.

I think you may be experiencing problems with the transportation system. You may want to discuss this issue a little further in one of the department meeting. As for the work in our immunohistochemistry lab, I think it is being done within the time limits we have agreed upon in the past.

Please, accept my best regards.

Sincerely Yours,

Mahmoud A. Khalifa, MD, PhD, FRCPC
ASSISTANT PROFESSOR OF PATHOLOGY
SITE CHIEF OF PATHOLOGY, THE GENERAL HOSPITAL

Enclosures: Copies of the two request forms

cc: Drs. D. Haegert and D. Cook
