Subject: RE: ER/PR

Hi Vik

If memory serves me correctly, the Ventana automated system first arrived some time in December 2003, it came on line in April 2004 following training etc.

Regards,

Dr. Cook

Subject: ER/PR

Hello Dr. Cook,

Thanks again for attending last week's briefing re: ER/PR testing. It did clarify why the tests were suspended in 2003. I just wanted to confirm with you - when was the Ventana system introduced?

Thanks again,

Vik Adhopia
