ER/PR

1. Ron will generate a Meditech list for ER/PR

2. Ron to give list to Maureen/Shelly to compare cases sent for ER/PR

3. CytoTech to screen list of surgical cases and highlight which case (including block #) as per Memo guidelines. This list to be forwarded to HistoTech's.

4. Histotech's / Pathology Steno's to find Surgical blocks and slides of each highlighted case. Indicated below are the slides that should be included in each surgical case as well as the surgical block.

   **** No surgical block's are to be re-cut without Dr.Neil's approval.***

5. *** Dr.Neil will access Slides/Blocks of each cases ***
