Dear Barry,

As per your request, please find enclosed the ERPR negative cases for the year 2001. I have included a list of patients as per previous year. I have again kept some of the cases which based on the history that I see, do not need repeats, but I have included the report if you need to review. I trust this is satisfactory.

Thanks,

PS There are a few ER PR slides that we have to locate, which we will forward in due course. All documentation is on the working sheet.
