Hi Susan

Regarding the teleconference today, Eastern Health has offered to provide their patient info/feedback line as a service to the entire province. It is not a 1-800 style hot line and patients would have to call long distance to 777-6500. The line is staffed by QI personnel. We should consider adding this to our website.

HIROC is bringing in a SME from Seattle to review the situation at Eastern. I asked Bob Williams to start thinking about plans for additional oncology clinic time in Western to coincide with the reporting and follow up requirements for our patients. It is anticipated that there will be a variety of individualized treatment plans. Eastern will be keeping a global registry and I have asked to see a sample of their database so that we can develop a similar format for ease of use and sharing. George will be taking this issue to the national level.

A group has been formed (I am Western rep) to track issues and consult on a weekly basis. I updated Snr Mgmt today.

Hope all is well with you in the Belle Province!

Ken

Thanks Ken,

We are almost complete. 2002 and 2000 are sent. 2001 and 2003 to go today. Hopefully 2004 to go tomorrow. 1997 -1999 will be little more time consuming since we were not on meditech, but we are striving to get all done by weeks end.

Paul

Subject: FW: Communiqué regarding ER/PR Testing
Importance: High

Pls print the attachment for the ER/PR file and forward a copy to all docs in the region.
Tnx.

Ken

Subject: Communiqué regarding ER/PR Testing
Importance: High

Please see attached communiqué from Dr. Paul Gardiner, Medical Director, Dr. H. Bliss Murphy Cancer Centre, regarding the ER/PR testing issue.

We ask that you ensure surgeons in your area who perform breast surgery receive a copy of this communiqué.
