Mr. Barry Dyer  
Divisional Manager  
Division of Anatomic Pathology  
Laboratory Medicine Program  
St. John's Hospitals, Eastern Health  
General Hospital Site

Dear Mr. Dyer:

**RE: Slides and Blocks for ER, PR and Her-2-neu from Mount Sinai Hospital**

This is just to inform you that we have received all the slides and blocks that we referred to Mount Sinai for retesting of ER, PR and Her-2-neu. It is my recommendation that we retain all glass slides from the tests performed, and return all paraffin blocks to the labs of origin. This decision was made based on a request from one of the sites (Corner Brook by Dr. Paul Neil) for the blocks to be returned.

I would appreciate your assistance in providing a person that will sort these and assure accuracy of the cases to be sent to the site of their origin. We should also ensure that a record of the cases being returned be kept in our Meditech system.

Sincerely yours,

Nebojsa Denic, MD, PhD, FRCPC  
Interim Clinical Chief, Laboratory Medicine Program
