

MEMORANDUM

DATE: November 29, 1996

FROM: Mahmoud A. Khalifa, MD, PhD, FRCPC

TO: Drs. S. Chittal, D. Fernandez, D. Haegert, R. MacIntosh, C. Morris-Larkin, D. Robb and P. Wadden.

REF: Liability issues for Pathologists

Physicians' liability is probably the single most unpleasant topic to talk about!

Dr. Beilby, the coordinator of the Physician Liability at The Canadian Medical Protective Association has given a very informative talk about this subject at the last Royal College meeting. Dr. Haegert has asked me to summarize this talk for you. I am enclosing this summary and hoping that you find it useful in addressing some of the issues related to our practice.
