Subject: Dako Autostainer

Hi Michael: Nice chatting with you this morning: As i indicated there is a local legal inquiry ongoing in our province and one of the items of interest is the Dako Autostainer that i sold to you several years ago. I was asked if i had the computer for that instrument and i honestly do not remember, if indeed it had one and shipped it to you with the autostainer. Can you confirm whether or not the instrument came with a computer? Is so, was the hard-drive formatted at the time or did you format the drive yourself. Can you tell me the condition of the autostainer when you received it? Did it require parts and/or adjustments before you re-sold the instrument and finally can you tell me where you sold the instrument and if indeed the instrument is still in service. A contact name and number would be greatly appreciated. Thanks, JOE [REDACTED]
