

June 30, 2006 Friday

1) documentation

2) issue of control
(accuracy)

3) what reference
lab

4) fixation

5) Tim Webman

Present Drs Cook, Morris, Lanten, Dene, Elms, Markar, Carter, Williams,
Mr. Barry Dwyer, Ms Pam Decker, Heather Puchner

RE - RE - implementation of ER/PR testing

- Nash:
- : have overview of immunohistochemistry, Dr Bown, Dr Bongyier, Tim Webman
 - : most of recommendations have been handled
 - : Consultants → middle of pack in North American practice
 - : Dr A Markar, Dr Elms will oversee the service
 - : Results sent to UK pathology lab → achieved high score 16/20 for ER (more technical)
 - o CAP testing - interpretation (more), one report received, good report
 - : Will not get into Her-2-Nu - sent to Tusum Arizona (Ventana lab)
(right now) → samples

Ford: Can't afford to be average - must have comparable
Pre Analytic - fixation - can't have specimen in formalin more than 24 hours
- (Discolor selection)

→ Analytic - running of test itself - validity, issue of reproducibility. No global standardization
→ Post-analytic - interpretation, 3 people will read the ER/PR's
→ Validity of antibody is issue

Ford - recommends to end of summer to turn on ER/PR

Nash: Talk about subependyma, subependyma sign out

Bow: has written a fixation protocol to be sent out to other centres

Nash: issue of fixation over weekend, clinical practice has to be adjusted
Pre Analytical issue still - may have to put in waiver

: issue of shift work on weekend, as problem with ~~the~~ under fixation or poor fixation

Issue of automatic report of Negatives, sent out small ~~random~~ ~~samples~~ random samples
to outside lab, send out some of regular bases

William. Issue of enrolling ~~me~~ in Ontario Accredited program. We are trying to get National standard

~~meet again~~ meet again on Sept 11, 2006

Marbanta will have to documentation of antibodies (Validation) (sign of antibodies)
 : due mark inspection & have ability to look at ease
 (Dr Marbanta) when and where antibodies are Validated
 : have to write SOP, curricula CSLI inspection
 :

Get Janet Lachy - to work with ~~us~~ us on these process
