Hi Deborah

Jeanette and I just spoke to Dr. Reza and answered his questions to his satisfaction. Jeanette advises me that there is some updated info coming, so I will send that along when I receive it. Thank you.

Ken Jenkins

Hi Ken,
Thank you for your attention to this matter.

NLCHI does require further clarification, but I believe this can be achieved more efficiently if Reza (NLCHI) contacted you and /or Jeanette directly by telephone.

I have left instructions for NLCHI to do so this morning.

Thanks, Debbie

Hi Deborah,

Please advise if you require any further clarification.

I have made one change on 03:SU3405 (see attachment). I have indicated which blocks were originally sent for 24 of the 33 names on the list. The other 9, we have no documentation to confirm which particular blocks from a case were sent only how many blocks were sent. I have a copy of the reports that came back from the testing site and they don't indicate the particular block number that was tested either. Does this clarify the column?

Importance: High

Robert/Dr. Jenkins:

NLCHI indicated that the information provided in the Excel file in Original Block Column does not indicate (as requested in your letter dated February 11, 2007) which block was used in the original testing.

As you can see, I have copied this email to Dr. Ken Jenkins so that he is aware of this issue.

Debbie

Hi Robert

We'll send by fax as well.

Ken

Dr. Jenkins;

Attached is the completed chart. I did make one change on [name deleted].

The specimen S-6310-99 did not have an original ER/PR done but it was requested to be sent as part of the recall. The result that was given as the original ER/PR score was for specimen S-6676-99.

Thanks;
Jeanette
