Don, Heather is working with Reza this afternoon. She has the 3rd part of your request complete and she will give this to Reza. She also has the 4th part that will be burned on a disk and given to Reza. The first and second parts she will get to you ASAP...early next week. As to the 4th part, we only have 15 results of retesting back and most of them are the living patients because we asked to have these done first. Pat

Subject: Request for Information

Hi Pat:

As per our earlier chat, below is the list of to-do items:

Tracey dropped off a list of 28 patients names to Heather on November 1st for which original ER scores is required. Would you follow-up with Heather on the status of this request

Further information regarding communications surrounding the 88 patients not included on Heather's August 1st

file. This was discussed in the Nov 1st meeting and involved Heather reading the names out from the list we provided (the October 29th list) and giving us some information from that. The title at the top of this list is October 29, 2007: EASTERN HEALTH patients (confirmed retests) not identified in August 1st file-for documentation of communication. Would you please have this information put in an official table for our records.

As per Debbie's e-mail to you earlier this morning would you please ask Heather to forward the information collected related to Susan Bonnell's email of November 1st, 2007 to me, as well as to Robert Thompson? The preferred format is in tabular form.

Would you please make available a copy of the Mount Sinai file recently sent to Eastern Health which contains the re-tests for samples sent up during the summer of 2007. I understand these are mostly deceased patients, and we need to update the database with these results.
