Hi,

I'm sending this list to you as follow-up from discussions that you've had with Pat Pilgrim and Debbie Gregory.

NLCHI sent a list of 32 patients to Pat (and then on to me) to determine the treatment status of these patients. In other words, was there a treatment change recommended or was there no treatment change, as a result in a change in the patient's hormonal status.

There are 9 patients from your area on the list. There are records in the Cancer Care program for 6 of them, for 3 of them we have no records.

When you could get this information could you fax it to Debbie Gregory at 729-5435.

CC Eaton

Thanks,

Heather

I e-mail you separately with the password to the document
