 Robert:

The list for Saturday's meeting will be ready by end of day. It will contain all tested/re-tested patients in the Centre database (n=1030) that were not identified in the original list (n=924) provided to the Centre on August 1st. The name, MCP #, source/region (e.g., Consult/Carbonear), and specimen number will be provided on the list. The list will also contain any cases that were originally ER negative, but may not have been sent for re-testing.

Don MacDonald
