Here is the translation of the letter from St.Pierre. We will need to check the database to confirm the patients from St.Pierre. Sharon tells me that all but one who is under active treatment are deceased.

Hi Dr.Howell,

Just had a few peaceful moments now to do this.

Sharon

St. Pierre March 27, 2008

Mrs. Joan Dawe
Executive Director, Eastern Health Regional Authority
Board of Trustees Chairperson
EHRA – St. John's, NL

Madame, the President,

The recent developments concerning the inquiry on the erroneous results of the hormone receptor tests include a list of affected patients. Of the numerous patients from Saint-Pierre and Miquelon who had been seen in EHRA in the described period from 1997 to 2005. It is feared that some of them must be affected.

As Medical-Advisor of Patient Insurance of the Archipelago of Saint-Pierre and Miquelon, I must attend to the verification of opportunity and appropriateness of care provided to the insured patients. It is indispensable that the patients of the Archipelago with the erroneous results now receive appropriate care.

I would be pleased if you would forward to me the comprehensive registered list (family name, given name, date of birth) of the patients from the Archipelago who are on the list announced by the press or potentially in error of interpretation of their tests in order for each of them and individually to take the necessary measures.

Thank you for your collaboration.

Sincerely yours,

Dr. Michel Bondonneau
Medical Advisor
Caisse de Prévoyance Sociale
St. Pierre et Miquelon

cc : Mr. Yves Fauqueur, Prefect of Saint-Pierre and Miquelon
Mr. Pascal Goderoy, Chief of Service, Social and Health Action Director of the Territory.
