Dear Barry,

As per your request, please find enclosed the ERPR cases for the year 1998 as requested. I have included a list of patients as per previous year.

In addition, I have separately included in the batch, three reports of the following:

- [REDACTED] - metastatic adenocarcinoma, mastectomy done elsewhere
- [REDACTED] - psuedoangiomatous hyperplasia
- [REDACTED] - malignant phyllodes tumor

Would you refer these to the panel of experts for decision on whether we need to do these? I will send as appropriate.

I trust this is satisfactory.

Thanks,
