How about we offer her Nash – assuming he is willing to do it! – and a line interview with Kara/ Howell next week? I can't do anything about the fact that people are on holidays when the reporter is in town. If she called me in advance perhaps we could have arranged something. However, if you think that you and Nash could do the tour on Friday, that would be something. Do you want to call Nash or will I?

Also, I wanted to speak with you about the FOI going to Mark Quinn next week. I spoke with Marian yesterday and helped her with formulating the letter, but I really think the org needs to send a letter to the CBC requesting that they use this information carefully. Can we discuss when you get an opportunity? I'm here today and can pop by if you are there.

He is in his cabin and will not be back until Monday! So what do we do now? Pat

I have not because I've been waiting to hear from Oscar. Is he away? Say it ain't so. I really don't want to miss out on this opportunity.

I can certainly arrange a tour of the laboratory for Friday. Susan, have you spoken to Nash about this yet? Pat

Pat/Oscar.. I will leave it up to you. Let me know what you can arrange. I think that the tour of the lab should be arranged if that is possible.. Who speaks now that Kara is not around I will leave it up to you to decide.. I know Oscar is out of town..

I spoke with Pat yesterday about a request we have received from a national reporter with the CBC's Sunday Edition. She is in St. John's this week doing a documentary on ERPR. She has spoken with Rob Ritter re: recruitment and retention issues in pathology; she has spoken with some of the patients impacted by the review; she has an interview on tape with a pathologist from TO; and she wants to speak with us.

I had an extensive conversation with her yesterday and came away from the conversation feeling that she is attempting to do a thorough look at the issue from all perspectives. I think this would be a good opportunity for us. My initial thought was Kara, but I understand that she is out of the country. We need someone medical who can put the issue in perspective hence I'm wondering about you, Oscar. I don't know if Pat reached you on this yesterday or not.

This morning she called and is requesting to speak with Dr. Denic and wants a tour of the lab.

Looking for advice on how to proceed. She is going to Deer Lake tomorrow and would like to speak with someone on Friday.
