2000 04 04

NEW BUSINESS

1. Day for Computer Shut Down - The best day for a 12 hour shut down would be 1600 hours Thursday to 0400 hours Friday.
2. Computer Revision 4.7 - The information for the Lab Module to be copied for all. Pathology, Microbiology, and Blood Bank only to those divisions. Managers to check the revisions over the next few months. Revisions to take place in Fall, 2000.
3. Summer Relief - Each manager addressing. General Hospital group meeting with Lynn.
4. Grace Move - The various options were discussed. Dr. Cook and Vern to attend a meeting in morning for more information. We would like OB/GYN to move at the same time as Janeway. If renovations are not completed, may have to leave Pathology at the Grace and transport specimens to that site.
