

**Notes of Meeting  
Laboratory Medicine Program  
2002 11 01**

Present: Dr. D. Cook  
Mr. T. Gulliver  
Dr. R. Williams

**Minutes 2002 10 11**

**Business Arising**

**Action by**

**1. Laboratory Testing – Out of Province**

Waiting on request from MUN for Laboratory to give presentation on Laboratory technology upgrades and Laboratory testing ability.

**2.**

**3.**

-3-

**Action by****2. Physician Strike**

Dr. Cook said that he didn't sense any bad feelings amongst the Laboratory Physicians. He mentioned that they are worried that salaried physicians may be left out of the proposed arbitration.

**3. Laboratory Renovations**

Terry said that phase II of the renovations are delayed as Facilities are awaiting the millwork for the bench tops.

Terry expressed concern over the priority of Laboratory renovations within the Facilities Department, e.g. renovations for the consolidation of Microbiology services. Terry will write Dr. Williams to go to corporate team.

T. Gulliver

Terry expressed a major concern over the amount of traffic that is now traveling through the middle of the Laboratory, in particular, the usage of the Pathology corridor immediately outside of the autopsy area. Dr. Williams and Dr. Cook accompanied Terry so that he could show them first hand. Terry had expressed this concern to Bruce Gorman and Keith Bowden and neither Bruce nor Keith supported Terry's concern.

Dr. Williams asked that Terry put his concerns in writing so that he can bring this issue to corporate team.

T. Gulliver

**Next Meeting**

2002 12 13 - 0900 hours
