RE: Repeat ER & PR's

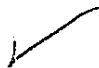

I am sending alternate paraffin blocks on cases previously reported as DCIS or NT (No tumour). I would appreciate if the ER's and PR's could be repeated using the LSAB procedures and interpreted on the following cases. These can be reported on an Excel spreadsheet. The cases are as follows:

	Spreadsheet Number:	Name & Surgical Number:	Alternate Block:
1.	RS- [REDACTED]	[REDACTED] SU-8791-98 (Old Grace)	21 ER-7A PR-4a
2.	RS- [REDACTED] MCP	[REDACTED] Su-10588-98 (Old Grace)	3 NT
3.	RS- [REDACTED]	[REDACTED] SU-3276-97 (Old Grace)	6 MSH ER-7A PR-70
4.	RS- [REDACTED]	[REDACTED] Su-5043-98 (Old St Clare's)	19 MSH ER-0 PR-0

-2-

		Name & Surgical Number:	Alternate Block:
5.	New Case RS- [REDACTED]	[REDACTED] Su-10327-98 (HSC)	L ER-D PR-0
6.	New Case RS- [REDACTED]	[REDACTED] (Carbonear) S-2149-01	O ER 80 - PR-0

To: Donald Cook
Subject: Repeats
Attachments: Repeat.xls

There was a change in [REDACTED] results with the ER changing from <1 to 2 and the PR changing from 5 to 30.
