COPY

Thanks Ken. I plan to drop by my office for a few minutes in the morning and will then be in medical records for most of the morning. Hellen can reach me there. I located the chart on [REDACTED] this afternoon. She has a new MCP number which is why we could not find her file.

I'll ask Hellen to arrange a meeting on an ASAP basis for the 3 of us (you can join by phone if you wish), so that I can update you on the phone call that Dr. Neil and I had with Dr. Laing today.

Hi Ken,

I had medical records pull two charts this morning [REDACTED] and am heading over to WMRH late this morning. My plan is to have a look at all three charts to add whatever information we can to the information we already have from the cancer registry. For some reason we cannot locate a chart on [REDACTED] but are still working on it.

Importance: High

Tnx Lisa. Can you please advise if Donna will be doing a local chart review on [REDACTED]. This seems to be the only one of these 3 in question now as to need for further follow up. Regarding the mention of "if ER/PR pos consider tamox", when was that entry made in the Cancer Centre file for [REDACTED]? From the info we have so far, it does not appear that she has been offered adjuvant therapy.

We also had a call yesterday through Robert Thompson and the CEO re [REDACTED] and [REDACTED]. Dr. Nejl is consulting with Dr Carter on the latter, after which we plan to talk to oncology (Dr Laing) about these two. We may need to talk to Dr Laing about [REDACTED] too, depending on what you find out.

Hellen is arranging a phone call with Dr. Laing, hopefully for today. I think Donna and perhaps Pat Pilgrim should be involved in that teleconference, as decision will need to be made on how further contact is to be made with these individuals.  
Tnx.

Ken

Hi ken,

Attached are Donna's notes following conversation with Heather Predham and her access of the Cancer Registry information. Donna will review our health records on EH to see if additional surgery/other treatment was done in our region.

Hi Lisa

Anything further on this one (ER/PR issue)? Tnx.

Ken
