Hi Tansy

Just FYI, Mark Quinn is doing a news story on the fact that the ER/PR testing is taking longer than we thought. Hes talked to Peter Dawe and Cancer survivor [REDACTED] and Dr. Williams also did a quick telephone interview. Basically all he said is that we are getting the results back as fast as we can; that we have issued a plea to Mt. Sinai that they do what they can to hurry the procedure along and that as soon as we get the results back we are letting people know. Theres not much more we can say.

Just wanted to keep you in the loop. I managed to hold him off until today. That way, the issue should be dead again by the time the house opens again next week J
