li Bonnie,

here is the list for our patients. I have confirmed with Heather that our responsibility for patient notification is just the negatives at this point. The attending physicians of the positives will need to be notified, and if they require advice from the expert panel in St. John's then they will need to provide some clinical info (not specifically defined) for the panel. Best to speak with Heather before you start. She can be reached at 777-6126 or pager 570-9703. Tnx kindly for your help.
