October 29, 2008

Ms. Jennifer Newbury
c/o Commission of Inquiry on Hormone Receptor Testing
50 Tiffany Lane,
St. John's, NL A1A 4H7

Dear Ms. Newbury:

As per your request, the Centre for Health Information has compiled a list of records from the ER/PR Database that have original positive ER or PR results, and Mount Sinai ER and PR negative results (as defined by your earlier correspondence).

Please note:

1. All variables requested were not available (i.e. Date of Mount Sinai test).
2. Some data requested could not be released due to the privacy policies at the Centre.
3. Data on Panel letters is not provided due to the details contained in the letters being patient specific. Note only 15 patients among the 44 records in this file had panel letters. If panel data is required please contact me directly at 752-6008 and we can pursue this further with the Centre's Chief Privacy Officer.

The CD containing the data is password protected. Please contact Ms. Tracy Chislett (Phone: 752-6016) to obtain the password.

Sincerely,

A handwritten signature in black ink, appearing to read "Don MacDonald". The signature is fluid and cursive.

Don MacDonald, PhD
Senior Director, Research and Evaluation

Virginia Connors

Subject: FW: Information from NLCHI database

Hi Rolf,

As per Bern's request below, I am forwarding the request from Jennifer Newbury. Would you please ask Mr. MacDonald if the information requested can be made available for Wednesday, October 29th. Thanks!

Virginia

Virginia:

Please send this request of Jennifer's on to Rolf for Don MacDonald, and ask that Don have this available by Wednesday of this week.

Thanks,

Bern

Subject: Information from NLCHI database

Hi Bern,

Further to our discussion this afternoon, following is the information that might be beneficial in the interim while awaiting receipt of the excel spreadsheet from NLCHI:

Retest results for which:

Either the original ER or the original PR is positive or weakly positive or is greater than or equal to 10 AND the Mount Sinai ER and PR are both less than 10

For each of the results that meets the above criteria, I would be interested in the following information, subject of course to the usual redactions:

- 1) specimen number
- 2) date (year) of original test
- 3) original ER and PR test results
- 4) region
- 5) date of Mount Sinai test
- 6) Mt Sinai ER and PR test results
- 7) Panel date (if applicable)
- 8) Panel recommendations (if applicable)
- 9) Date of Panel letter (if applicable)
- 10) Status of patient (living/deceased)

Thanks,

Jennifer
