- Health.

- fixation site dependant

2002. become complete 4 org. in St John's  
all immuno

St Clare's do 60-70% of forensic

50% are processed.

Health Sci., St Clare.

4

for one in forensic 1 lg. only.  
no weekend processing.  
processed at Health Sci.  
planning to bring.

embod cut down at Health Science

- sent back to regional site

\*

policy. Health Sci. fix for 24hr.

St Clare: fix up to pathology

paths - make <4> \*NOT CONFIRMED BY PATH.  
communication? lack of policy  
procedures.

workload - 4 days behind.

30 k/yr.

150 fix/day. - 300 lg. block

↓

informal protocols

wants to change to transport fresh

- don't have PA. - beginning to write Sop's

lg: den  
lowd  
breast.  
thyroid.

St Clares: same mix.

focus breast head neck

- gross amiot, frozen, autopsy.  
↓ 20/day 2/month.

because all bx come to the Sciences

---

URGENT - cut at 7pm.

bx - cut by 9pm

routine.

all cutting done St Clair.  
 9 techs.

→ 0.181 technician

9 techs gross ass'ts.

cutting, labeling.

staining

~ 1000 sl/day.

labeling

sl. labels not interfaced in computer system. <sup>✓ medical</sup>

2 technician included in the 9 techs.

↑ 30 yr experience do everything a technologist does.

- data entry operator.

- enter & all specimens.

Send into

receiving spec.

- cut off of 75 pt cores/day has to be urgent.  
 but box. 35/day.

routine get dropped box picked up

prior to Sept 2

Jan 2003.

formaldehyde - made in house &  
sent to everyone.

Extre Res

- both fill out res.

- Since purchase

- immune a sp. / cut by immune.

- need to  
pH.

\* every microscope # , # documented.

- centring screws " < immune.

histo cytometer . "

pathologists / city.

1 does bx - tech does gums -

1 Brownian path does gums & read.

but of leap. - sends to routine.

" then becomes that both we

medical director in charge of immune.

Competency Program.

- don't have one.

EQA.

don't have one.

New Ab. ~~RE~~

- only in the.
