**Subject:** RE: ER/PR's for QA

Hi Dr. Cook,

I have called and left you a message regarding these samples. I apologize for the late reply on our part. What had occurred is that we have a general QA program but your samples are not really part of this QA program. Your samples have gone through and Dr. Mullen will be looking at them. On a go forward basis you can keep sending the samples to me and I will process them as research samples.

Maria

**Subject:** ER/PR's for QA

Hi Maria

Since April we have sent up some ER/PR's for QA purposes. We have not yet received the results. Could you advise me of the status of these.

Thanks  
Dr. Cook
