Me

- I was on the understanding  
that

- ER is more important  
than the PR  
if the ER is 5% and  
the PR is 90%.

Addendum didn't go to chart  
original report did say it was  
going for more treatment

- treated based on the neg report  
from Concord Falls

- may not have had impact  
as it was 1998.
