Subject:

I know why the DCIS review has not yet been received by NLCHI.....even though the review is complete and signed off by Nash...nothing else to be done with this...the final sign off has not been done in the computer laboratory module. Nash was on leave ..has been up to his ears and so on. Barry Dyer has been meeting with Nash on a case by case basis and is trying to get a time to just sit down and complete this. It was felt that the review is not really complete until the last sign off of results in the laboratory module.
