Subject: Update on ER's/PR's

Hi Ken,
Dr Williams has to give a report to our Board of Directors at Eastern Health early next week as to the status of the ER's and PR's. We know that these cases will be completed by the end of January 2006, however Dr. Williams would like an updated report as to the progress of staining and interpretation etc. This information would be greatly appreciated.
Thanks,
Don Cook
