Ht. Sinai doing all testing in a go forward basis  
and retest all regimens <sup>(500)</sup> from part 5. pr. (within 3-4 wks)

If no change in results, no contact with pt.

If change in results, Eastern will contact pt. & oncologist.

Chief Technologist from Ht. Sinai and ? oncologist from BC  
to assess system and QA process in Sept.

### Vantana rpr

- equipment is acceptable
- new system is working
- protocol
- maintenance of instruments → some additional preventive maint. should be done
- instruments are up to std.
- 4 staff are within competency of others in Cda

• ongoing oncologists on staff
