Subject: ER/PR Testing

** High Priority **

Good morning,

The Department has asked the NL Centre for Health Information to complete a piece of work around the ER/PR testing. This work includes confirming the number of patients who received ER/PR testing across the province from January 1997 to December 2005, as well as information on communication of retesting/ retesting results with physicians and patients.

In this regard, the Centre needs to develop a database using the hard copy/electronic data of all (+/-) ER/PR testing results from the four RHAs. We need your assistance in a very timely manner to enable the Centre to develop the database.

Can you please provide information on the list of all ER/PR tests done at your RHA from January 1997 to December 2005 to Don MacDonald, NLCHI within one week. Don also needs a contact person in each of your regions to assist with this work.

I have copied Don on this e-mail so he is aware of my request to each of you and so he can clarify/add to this request if necessary.

As you are aware, this is a sensitive issue and your cooperation in providing the information/contact person within one week would be greatly appreciated.

Thanks,
Moira
