Subject: Contacting Patients
Date: November-15-07 12:07:56 PM

Just to keep you updated. Of the **15** results we have back...

- **6** confirmed negative have been contacted by Heather and Nancy
- **1** is from Western and Nash will look after notifying them of the results
- Of the **8** who converted, Sharon is pulling charts on **6** of those who are patients of oncologists and we will talk to the oncologists today about notifying these patients. We do know that 3 of these 6 were already on Tamoxifen.
- The other **2** of these 8.....1 is deceased and will be contacted as per the deceased...we have yet to work out who is going to talk to the deceased.

The other 1 is an elderly lady in Carbonear who we know had been tried on Tamoxifen. We are going to contact the family doctor on this one.

So that includes the first 15. Will keep you posted. Pat
