Terry, I need to talk to you about the NLCHI lists!!! In going over the lists with Heather, there appears to be information that we could have provided that we did not. There also appears to be another 5 patients who were on our original list that were not retested...these are to add to the 3 that we already knew about. They are on list #3, numbers 7, 11, 15, 19 and 21. It is imperative that we have this information confirmed and we contact these patients. The clock starts ticking when we are aware of them. I have asked Dianne to get you, me, and Heather in the same room. Pat
