**Subject:** It is Over

And I am still here! It went as well as could be expected. They sent very few questions my way? The Minister of Health got most of them. I got a few key messages across and that was it....I am so relieved! Deborah and Diane felt the media is finally getting the understanding of how complex this all is. The most questions were related to why we (or the government) are not able to give them such information as the false negativity rate even with all of this? They wanted to know about all the deceased people and how the number had changed! So the headlines will be around the number not yet contacted = 44..not ours! And the number of deceased? And whatever..who knows> Pat
