Hi there, I have to ask you guys to follow up on the patients on the Central list who were positive and remained positive. According to my list. there are 5 of them. Central is doing their own negative who remained negatives...there were 9 of them. There were 7 DCIS who we will not be contacting anyway because they were never really tested...just confirmed DCIS. However, given that the Minister said all patients who had not been contacted were now being contacted, we should just go ahead and contact them?? I wil check with Robert Thompson on this. Just need you guys now to follow up on the positives who remained positive...please. Dianne has the list. Pat
