Hi,

There are 40 more outstanding.

Nancy, Deanne and Janet have 23 more on their combined list....I'll check and see if the calls can be done tonight.....

I have 17 more to confirm....I have calls to MD's on 12 more (I'm waiting to hear back)... I have identified 3 who are no longer living in Newfoundland and I cannot tell if they know anything or not. The last addresses we have is for here....will we still send them letters?.....and then I have a few finicky ones to follow-up on

Janet has gotten two more calls on the 1-800 line. They were both from ER neg/PR pos people who were retested and their ER changed...but they were always considered positive....

Heather

Are any of you able to try and get some of these people tonight? The people who did not know....you mean they had never been informed of anything? How many more do we have to get ...not counting the other boards?

 Hi,

Here are 33 people we have been able to contact today.

3 of them were not aware of this process before; but they know now.....

1 of them, [REDACTED], is upset with us about her cancer treatment overall

Heather
