**Attachments:** Pathology Report.pdf

---

Hello [REDACTED]

I was glad we were able to connect today. I've attached your wife's pathology report to this e-mail.

As an explanation of the report, it reads backwards over time:

- The last section (on the bottom of page 2 and page 3) that describes the Gross and Microscopy examination was done just after your wife's surgery
- Addendum #1 was added to the report when the results from the original testing for ER/PR was available
- Addendum #2 was added when the results of the HER-2 Neu testing was available
- Addendum #3 was added when the results of the retesting by Mount Sinai was returned. The note at the end of Addendum #3 "Please see the consultative report" is a reference to the testing documentation returned by Mount Sinai which gives more detail about the HER-2 Neu (similar to that in Addendum #2).

If you have any questions, don't hesitate to call me.

Thank you

Heather
