Subject: Letters to physicians re [REDACTED] and [REDACTED]
Attachments: Letter 3 April 2 08.doc

Hi Sharon,

The letters to the physicians of [REDACTED] and [REDACTED] are attached and reflect Pat's last edits. Both will require inclusion of the physician contact information for the header, once we are able to confirm that.

At this point in time, Nancy has not been able to make phone contact with either of these physicians.

Ms [REDACTED] physician is no longer in the province and we are awaiting a new contact name from Western for her.

Ms [REDACTED] physician is not in the office. Nancy is attempting to make contact with her secretary and was advised to try again around 1:30.

Once Nancy is able to; a) speak with the appropriate physicians and b) confirm their fax numbers and mailing addresses, she will advise you so you can then fax the letters under the Cancer Care program's letterhead as per Pat's previous note.

Re: Ms. [REDACTED] MCP number [REDACTED]

Dr. [REDACTED]

As discussed, I am forwarding Ms. [REDACTED] breast cancer pathology reports.

Ms. [REDACTED] was originally diagnosed as Ductal Carcinoma In-Situ (DCIS). This diagnosis was confirmed upon retesting at Mount Sinai.

Please communicate the retesting results to Ms. [REDACTED]

Thank-you for your assistance,

Sharon Smith
Director, Cancer Care Program
