**Subject:** Letter re unable to contact  
**Attachments:** Letter re unable to contact.doc

Hi,

How's this for the remaining "unable to be contacted" .....

I'm second guessing the need to send it.....bacuse they would ahve all recieved an apology letter by now, so it seems late in the day to send this

The letter can go to the last known address of [REDACTED] as we thought she was from st. Pierre

Heather

5/31/2008

Dear Ms. ,

As you may be aware, Eastern Health has been investigating the hormone receptor test used after a person is diagnosed with breast cancer. As part of that investigation, it was necessary to retest tissue samples of breast cancer patients, originally tested between 1997 and 2005 and whose results indicated that they were negative for Estrogen Receptors.

Your sample had been included in this retesting process however despite numerous attempts, we have been unable to contact you to notify you of the results.

If you do receive this letter, please contact me at (709)777-6126 so arrangements can be made to give you your results

Thank you

Heather Predham
