Yes to the best of my recollection. The slides were sent to St. John's on January 30th so I am not able to recheck. Hope that helps.

Brendan,

Our Tumor Board Committee reviewing the ER/PR cases wishes you to reconfirm that the ER result initially reported in Oct 2005 on [REDACTED] RS [REDACTED] Block B as ER- 5% is revised to ER -65% on the same block. The committee wants to know if the second result is the one to go by.

Regards,
Don Cook
