Re: [REDACTED]

Dear [REDACTED]

Please find enclosed reports on the above mentioned patient. As part of the ERPR review process, it came to my attention that SU 520-97 did not have original ERPR report, therefore it was sent to Mount Sinai for testing. The result is attached. As I was unclear of her clinical situation, Ken and I discussed an appropriate course of action with Dr. Kara Laing. As you are the surgeon in this case, it was recommended that you discuss her clinical situation with Dr. Ganguly who was following the patient and subsequently discuss her clinical situation and the enclosed reports with your patient.

If you have any questions regarding these reports, please let me know.

Sincerely,

Cc Dr. Ken Jenkins
