Hi Don,

I will check our records.

Maria

Hi Maria:

We have found a patient with breast cancer who apparently was re-tested at Mount Sinai (██████████ SP-05-19151). It has been entered into our Meditech system, which is our hospital information system. We have been unable to find the hard copy of the Mount Sinai pathology report/consult for this particular patient. I wonder if you could check this patient in your LIS system and let me know whether she had an ER/PR test done at Mount Sinai, and if so could you provide me with a copy of the report.

Thanks,
