Dear Dr. Watters: *Kenn*

As discussed, we are in the process of evaluating our ER and PR immunoperoxidase stains. We will be forwarding two unstained labelled slides to your lab. These slides will be stained for estrogen and progesterone receptors via immunoperoxidase technique. Once the slides are stained, they can be forwarded to my office. I anticipate that we may be evaluating anywhere from 40 to 50 cases. Of course, we will be reimbursing you for this service.

I certainly appreciate your help in this difficult situation.

Sincerely yours,

Donald M. Cook, MD, FRCPC, FCAP
