I have requested the transcript and will forward it along.
We have 249 cases sent in for re-testing. Ken was checking late yesterday but I think that most, if not all the women, have been notified. We are unsure of the status. They were sent from here (end of Oct) to Eastern and then on to Mt. Sinai for re-testing. Mt. Sinai is hoping to have all the re-testing completed by the end of Jan. It seems like 10% of the samples are coming back as inaccurate, so that translates in Western to about 25 women who could have benefited from a different course of treatment. Heidi
I will also send you Minnie's transcript on the surgical bed issue that I mentioned yesterday.

Heidi,
Are you ordering the transcript?
Can you give me the status of testing in the Western Region - how many people have been notified of the retesting, total number of samples being retested and the status of the retesting.

We anticipate this to come up in the HOA.

Tks,
tansy

For your information, Ken Jenkins, VP Medical Services did an interview this morning with CBC on ER/PR and the particulars to Western. They also had Peter Dawe on yesterday am.
Heidi
